#### **Section H: Clients Declarations**

(Please note that it is of utmost importance that you read this section carefully and understand it fully).

- I confirm that a Contact Stage Disclosure letter, setting out the financial adviser's full particulars, experience and services offered has been provided to me.
- 2. I confirm that I required the financial adviser to render the financial services set out in the Service Level Agreement, a copy of which has been provided to me
- 3. I understand that the accuracy of a needs analysis is dependent upon the information provided to or obtained by the financial adviser. The advice furnished and product recommendations made by the financial adviser are based largely on the information I provided to the financial adviser. I understand that material non-disclosures and misrepresentations could result in inappropriate product(s) being recommended and purchased by me
- 4. I confirm that I was provided with copies of quotations, fund fact sheet(s), marketing brochures and rates and benefit sheets for the product(s) selected. All material terms and conditions of the product(s) selected were explained to me prior to any decision made.
- 5. I have been informed of and understand all costs, charges, penalties, liquidity limitations and tax implications where applicable. I understand the risks / guarantees (or absence thereof) associated with the product(s) and /or underlying fund(s) selected.
- 6. I confirm that all documents signed by me were fully completed prior to my signing them.
- 7. I confirm that the financial adviser has made enquiries to ascertain whether the product(s) selected are intended to replace any existing financial products held by me and where applicable, has informed me of the financial implications, costs and consequences of replacement.
- 8. Notwithstanding the information provided by the Advisor, I acknowledge that I have an obligation to familiarize myself with the terms and conditions of the product(s) that I have purchased.

#### **Insurable interest:**

The Insured must have an insurable interest in any item insured under this policy at the date of the event giving rise to a claim. If the Insured's insurable interest in an insured item is an interest other than as an owner or a good-faith possessor of the goods (in terms of a credit agreement or else) who bears the risk of loss, the Insured must advise the Company of the nature and extent of the insurable interest before the cover commences. The cover for any such item will start only when the Company has given written confirmation and agreed to insure the property. Should the nature or extent of the insurable interest in any item insured under this policy change, the Insured must notify the Company immediately in writing of such change. Failure to do so may entitle the Company to reject the claim if the Insured's insurable interest was not agreed to by the Company.

### Average:

Policies of insurance covering material property are subject to average. This means that you could recover the full amount of an insured loss only if your sum insured represents the full value of the property covered. If the amounts insured are less than the full value at the time of the loss, you can recover only a proportionate amount of the loss. If there are several items of property insured, the average will be applied separately to each item. Consequently, sums insured should always be maintained at adequate level.

### Reinstatement value conditions:

Where cover is subject to these conditions, the basis upon which the amount payable is calculated should be the cost of replacement or reinstatement by similar property or repair to a condition substantially the same, but not better or more extensive than its condition when NEW. It is therefore essential that in all instances where these conditions apply, the sum insured must be representative of the actual NEW INSTALLED REPLACEMENT VALUE at the time of reinstatement, and must cater for:

• All leased, hired or rented assets which you are responsible to insure

- Labour, installation, engineering, project management and all associated costs
- Peripheral/associated equipment and costs such as cabling, trunking, etc.
- Inflation during the time it will take to reinstate/rebuild/replace
- Currency fluctuations, exchange rate duties, taxes, surcharges, and all associated costs
- · Trends and other fluctuations in value
- · Value-added tax

#### Value-added tax:

All sums insured/limits of indemnity must be inclusive of VAT and in some instances, e.g. personal accident/stated benefits cover, where indemnity payments received by 'vendor insured's' are vatable, the sums insured/limits of indemnity would need to be increased by a further 15% so as not to reduce the net payment when a claim occurs.

#### **Premium payment:**

The premium is due and payable on or before the inception date or renewal date but must be paid immediately upon receipt of the invoice, but no later than within 30 (thirty) days of inception/renewal of the policy. The Company shall not be obliged to accept premium tendered to it more than 30 (thirty) days after the inception or renewal date but may do so upon application at such terms as it, at its sole discretion, may determine.

· Where the premium is paid monthly

The premium is due and payable on or before the inception date or the first day of each month thereafter as the case may be. If the premium has not been paid for any reason other than the Insured having stopped payment, the Company will re-debit in the following month for two months' premium.

The policy will cancel immediately:

- If the Insured has placed a stop payment on the premium
- If the full double premium has not been paid (effective from the date of the first unpaid premium)
- There may be instances where the policy may be cancelled if one month's premium has not been successfully received. Take note of specific correspondence received in instances where this is the case.

If all premiums have not been paid, any claims made will not be settled under this policy.

## **Adjustment Premium:**

If the premium for any section of this policy has been calculated on any estimated figures, the Insured shall, after the expiry of each period of insurance, furnish the Company with such particulars and information as the Company may require for the purpose of recalculation of the premium for such period. Any differences shall be paid by or to the Insured as the case may be.

#### **Duty of disclosure of material facts:**

Because you have a far better knowledge of your risk than your insurers, please advise us prior to inception of cover or renewal or when changes are made to your risk during the year, of information which may affect the insurer's appreciation of the risk. Examples could be particularly hazardous aspects of your business (such as processes undertaken, new products, signing of leases or contracts which may impose additional liabilities on you, situation of premises, threats from other parties, warehousing of customers' properties, hiring of plant and equipment).

You do not have to disclose things which diminish the risk of insurers or are common knowledge or knowledge of which is waived by the insurer. Where, however, you are in any doubt, it is better to inform insurers as many claims have been repudiated on grounds of non-disclosure.

When a policy is placed with an Insurer you need to disclose all material facts, which could affect your Insurer's appreciation of the risk of loss, damage or liability, for which they will be providing you with insurance cover.

Once cover has been placed, the need to continue disclosing material facts not previously disclosed to your current insurers continues. This applies to all your insurance covers not just those insuring your assets, and disclosure should be made via your broker as soon as the facts come to your attention.

In addition, you need to immediately advise your broker of any changes or planned changes in your assets or business activities.

#### Standard construction:

The building and outbuildings are constructed with brick walls, stone or concrete and are roofed with slate, tiles, concrete, asbestos, or metal. We must be advised if any structure on your premises is not constructed in accordance with these requirements.

#### **Unoccupied buildings/premises:**

If any building and/or premise shall become unoccupied for 30 (thirty) consecutive days, the insurance cover is suspended as regards the property affected unless the Insured, before the occurrence of any damage, obtains the written agreement of the insurer to continue with the cover.

During the period of the initial unoccupancy of 30 (thirty) consecutive days, the Insured shall become a co-insurer with the insurer and shall bear a proportion of any damage equal to 20% (twenty per cent) of the claim before deduction of any first amount payable.

Theft (or any attempt thereat) of contents, electronic and all other equipment, plant, machinery, landlord's fixtures, and fittings, etc. not accompanied by forcible and violent entry into or exit from such building, is excluded unless specifically insured. An alarm warranty is also applicable for all sections which provide theft cover to the premises and requires that a linked alarm be activated and in working order whenever the premises is unoccupied. The alarm must be linked to a 24-hour manned control room and armed reaction and be activated whenever the premises is unoccupied. If either of these conditions are not met, there will be no cover. We further recommend that you test the alarm at the intervals recommended by the service provider to ensure that the alarm is operational and in working order.

### Power surge:

Power surge cover is generally limited in terms of the policy, and we encourage you to check each section of the policy to determine the adequacy of the limit of cover selected. Insurers further require that there is SABS-approved power surge arrestors installed at the premises for the cover to be valid, or else ensuring that the cover is not limited, or additional excesses being applied. We recommend that such surge arrestors be installed on the mains of the premises by a professional service provider, to ensure that all equipment is adequate protected.

# Retaining and boundary walls:

Simplistically, a boundary wall serves as a dividing structure between two pieces of land and a retaining wall serves to split levels of ground to prevent the higher level from subsiding onto the lower level.

In consequence, a retaining wall carries a much higher risk than a boundary wall.

The policy excludes damage to retaining walls caused by storm, wind, water, hail, or snow, unless you can provide insurers with written proof confirming the retaining walls were designed and constructed in accordance with a professional structural engineer design specification.

An Insurer will require the submission of a stability report from a suitably qualified engineer prior to going on risk at inception or renewal of a policy, to substantiate the current stability of the structure. Once this report has been received and cover is approved, the Insurer will list the retaining wall separately on the policy schedule and likely charge an additional premium on the (new replacement) value of the retaining wall.

It is imperative that property owners be aware of all retaining and boundary walls on their property and monitor, on an ongoing basis, the changes to and around all retaining and boundary walls, especially where the other side of the wall is outside of their property.

Pleading ignorance when your boundary wall becomes a retaining wall by the action or inaction of a third party and then collapses is unfortunately of no help in an insurance claim. When in doubt, always ask your broker for assistance.

#### **Claim Notification:**

On the happening of an event that may result in a claim under this policy, notify us as soon as possible and provide in writing details of the event including all substantiating documentation that your insurers may require. The police must be notified immediately after the event. Insurers require that all claims be reported no later than 30 days after the insured event or there may be no cover.

#### **Prevention of loss:**

You are required to take all reasonable steps and precautions to prevent accidents or losses, including, but not limited to, compliance and adherence to laws and regulations which are material to the risk. It is warranted that all laws, regulations, by-laws, and rules which apply to the business or any other matter for which cover is provided in terms of the policy shall be always adhered to.

### Remote jamming/theft of items from a vehicle without forcible and violent entry or exit:

If the Insured can demonstrate through video surveillance footage (or any other conclusive proof) that an attempt was made to lock the vehicle using the vehicle remote but that the locking mechanism was blocked by thieves using an electronic device, such evidence shall be deemed to satisfy the forcible and violent entry or exit requirement for any loss out of the cab or boot of the vehicle

#### Burglar alarm warranty (where applicable):

It is a condition precedent to the liability of the Company that a burglar alarm system will be installed in all premises stated in the schedule and warranted that:

- The burglar alarm installed in the premises shall be fully activated whenever the premises is not open for normal business unless any
  principal, partner, director or employee is in the premises
- The insurance shall not cover loss of or damage to property following the use of keys, the keypad code or remote control of the burglar
  alarm or any duplicate thereof belonging to the Insured unless such keys, keypad code or remote control were obtained by theft

Unless specifically stated to the contrary, all premises shall be protected by such alarm, and it is further warranted that:

- The contract for any burglar alarm services shall include services of a 24-hour armed response unit
- The control panel shall have an event log and the arming and disarming of the alarm shall be logged and after the occurrence of a claim the Company will be entitled to request full information of the relevant log
- Such alarm will be maintained in proper working order, but the Insured shall be deemed to have discharged their liability if they have
  maintained their obligations under a maintenance contract with the installation/service company of the alarm system

## **Excess/first amount payable/deductible:**

Your policy is subject to several different excesses/first amounts payable for each section of the policy where cover has been selected – these are detailed per section of the policy or are listed under the Excess section. Refer to the various sections for applicable excesses/first amounts payable in the event of a claim.

### **Tracking device requirements:**

**SECTION 1: FIRE** 

Your policy may contain specific requirements regarding the compulsory fitment, maintenance and testing of tracking devices, as well as the type of tracking device specified for the type/category of vehicle (i.e. constant monitoring/early warning). We strongly encourage you to familiarise yourself with these requirements as theft/hijacking cover is often subject to such tracking devices being installed, maintained, and tested.

Where tracking devices are not a requirement, and you have elected to fit such a device of your own accord, inform us as you may be entitled to a reduction in premium and/or your theft excess may be waived (subject to policy terms and conditions).

#### **IMPORTANT:**

- Premium payment: (The premium is paid monthly, quarterly, bi-annually, or annually) The premium is due and payable on or before the inception date or renewal date but must be paid immediately upon receipt of the invoice, but no later than within 30 (thirty) days of inception/renewal of the policy. The Company shall not be obliged to accept premium tendered to it more than 30 (thirty) days after the inception or renewal date but may do so upon application at such terms as it, at its sole discretion, may determine.
- · Where the premium is paid monthly

The premium is due and payable on or before the inception date or the first day of each month thereafter as the case may be. If the premium has not been paid for any reason other than the Insured having stopped payment, the Company will re-debit in the following month for two months' premium.

The policy will cancel immediately:

- If the Insured has placed a stop payment on the premium
- If the full double premium has not been paid (effective from the date of the first unpaid premium)
- There may be instances where the policy may be cancelled if one month's premium has not been successfully received. Take note of specific correspondence received in instances where this is the case.

If all premiums have not been paid, any claims made will not be settled under this policy.
